- **Tools:** Adobe Photoshop

EXPERIENCE

Innovano Technology Solutions Private Limited

Technical Support Analyst

(Nov 2025 - Present)

Key Responsibilities:

- ✓ Developed and maintained frontend and backend components of web applications. Collaborated with senior developers to implement new features and enhancements based on client requirements.
- ✓ Developed and maintained frontend and backend components using React.js, Node.js, Express, and MongoDB.
- ✓ Conducted unit testing and debugging using Jest, Mocha, and Postman to ensure software reliability.
- ✓ Developed responsive and mobile-friendly UIs with Tailwind CSS, Bootstrap, and Material UI.

Lee Fight Club Project :

User Experience Researcher

- ✓ Developed a dynamic and responsive web platform for Lee Fight Club using React.js, Node.js, and MongoDB.

- ✓ Designed and implemented user authentication and role-based access control for secure member management.
- ✓ Implemented SEO best practices to enhance site visibility and user acquisition.

PhotoShop Design:

Photoshop Digital Artist(Freelancer)

- ✓ Crafted and sold personalized gifts, such as digital art and custom designs, to 17+ clients, driving a 20% sales increase and enhancing satisfaction by 10%

PERSONAL PROJECTS

Title: *Expense Tracking Application*

- Developed a full-stack expense tracking application using React.js, Node.js, and MongoDB, enabling secure user authentication and real-time expense tracking. Implemented RESTful APIs for seamless data management and designed a responsive UI for a smooth user experience. Deployed the app on Heroku/AWS and optimized for performance and security.

Title: Digital Agency ERP System

Core Technologies: [React, Express Js, MongoDB]

- Developed a full-stack ERP system using MongoDB, Express.js, React.js, and Node.js with role-based authentication (Admin, Manager, User).
- Implemented modules for Client Management, Project Management, and Task Management with CRUD operations and status tracking.
- Built a user-specific dashboard to display assigned tasks with real-time status and progress updates.
- Designed secure REST APIs using JWT authentication and role-based access control (RBAC).
- Integrated WhatsApp notification system for employee leave requests to notify managers in real-time.
- Used Git and GitHub for version control and deployed the application using modern cloud platforms.

PERSONAL PARTICULARS

- Father's Name : SUBRAMANIYAN
- Languages Known : Tamil & English
- Address : 571, Panangulam South, Alangudi (TK),
Pudukkottai (DT) - 614 624.
